Flavia C200

The ultra-compact Flavia C200 has all the features Flavia customers know and love, but with a new contemporary design and an easy to use push button interface. The Flavia C200 is built on an evolution of ultra-reliable tried and tested technology. Use it without the need of a mains fed water supply by simply filling the built in 2.8 litre water reservoir, but mains connection is also an option. The Flavia C200 is superbly energy efficient as it only heats enough water for each cup it brews; an energy save mode powers down the brewer when it's not used. With up to 25 drinks choices and an optional Flavia fresh-pack merchandiser, the C200 is ideal for the smaller workplace.

- Over 25 Flavia drinks to choose from
- Includes a 2.8 litre tank fill water reservoir with the option of a mains fed water connection
- Energy save mode, switches itself off when not in use
- Durable, high quality construction
- Footprint 393mm (h) x 239mm (w) x 395mm (d)
- Weight 9Kg
