Jofemar Vision Combo Bluetec

The Jofemar Vision Combo Bluetec offers a unique set of abilities compared to traditional snack or food vending machines. Without drum and doors or spirals to deliver products the Vision Combo uses a soft delivery elevator and features a versatile flexible extraction system adaptable to virtually any product and packaging.

This exclusive Easy Flex system allows ready meals, tins, jars, snack pots, plates, sandwich boxes as well as cans bottles or snacks all to be gently dispensed by soft elevator.

The Vision Combo can also work with up to two additional slave machines to offer increased product capacity, it can even incorporate microwave ovens controlled by the master machine. The microwave ovens are self-activated when a product has been dispensed from the master machine with individually heating time programmed per selection. This very clever mix of abilities makes the Jofemar Vision Combo Bluetec the perfect machine for an automated shop, cafe or canteen.

- Can accommodate a wider range of products that traditional vending machine cannot.
- Optional MDB compatible card or key reader
- Pop-up billboard advertisement on the elevator
- Vandal-proof coin entry
- Optional online interface operation providing real-time control of users & sales
- Management of up to two slave vending machine for higher capacity and number of selections
- Can optionally connect to Self-activated Microwave ovens when a product has been dispensed from the master machine. Individually heating time programmed per selection.
- Programmable energy saving mode
- Footprint 1830mm (h) x 803mm (w) x 935mm (d)
- Weight 325Kg
