## Flavia Barista

With its clean and contemporary styling it's immediately clear the Flavia Barista is no ordinary brewer, it is capable of crafting authentic espressos, lattes, cappuccinos and teas at the touch of a button. Finished in high quality stainless steel and piano black plastics it won't look out of place in any modern office. Use it without the need of a mains fed water supply by simply filling the built in 2.5 litre water reservoir, but mains connection is also an option. There is a wide range of coffees, teas, hot chocolates, lattes and speciality beverages already available for Flavia machines, for the launch of the Barista Flavia has introduced new 100% Arabica dark roast and decaf espresso blends. The Barista has an optional Flavia fresh-pack merchandiser and stylish base cabinet. As a machine in the workplace, there really is nothing quite like it.

- Over 25 Flavia drinks to choose from
- Includes a 2.5 litre tank fill water reservoir with an optional mains fed water connection
- Energy save mode, switches itself off when not in use
- Durable, stainless steel construction
