Jura WE8

Anyone who appreciates speciality coffees will love the very affordable Jura WE8, its innovative technologies revolutionise the enjoyment of coffee. The One-Touch menu function creates up to 12 different speciality coffee drinks, very simply at the touch of a button. This incredibly easy to use machine has a modern TFT display to make operation simple even for inexperienced users. Jura has perfected the complete brewing process for short coffees, the six-level Swiss made Aroma G3 grinder ensures that the coffee is optimally ground allowing the WE8 to make professional barista standard drinks every time. It always grinds the beans fresh, quickly yet gently to preserve the aroma. The patented Pulse Extraction Process (P.E.P.®) developed by Jura, optimises the extraction time. To make a ristretto or an espresso, it forces the hot water through the ground coffee at short intervals to produce the perfect drink. The One-Touch function on the Jura WE8 allows you to make cappuccinos and lattes finished with milk and milk foam at the touch of a button, without having to move the cup. Its water tank can hold an impressive 3 litres of water, a bean container for 500 g of coffee beans and a coffee grounds container with a capacity of 25 portions make this elegant professional coffee machine the ideal choice for locations where around 30 speciality coffees are consumed per day. Cleanliness and hygiene are essential in any workplace, so the integrated rinsing and cleaning programmes combined with specially developed cleaning products for JURA coffee machines ensure perfect hygiene at the touch.

- Ideal light use machine for up to 30 drinks a day
- Water tank capacity 3 litres
- 2 programmable water temperatures
- True 15 bar water pump pressure
- Coffee tank: 500 g
- Footprint 419mm (h) x 295mm (w) x 444mm (d)
- Weight: 10 kg
- Power: 1450 W
