POU Water Cooler

Arctic Chill 88

The High Capacity Direct Chill POU Cooler Arctic Chill 88 offers a sleek design that will fit into any interior and includes a contactless infrared sensor to avoid touching the dispense button. It delivers 30 - 40 Litres Per Hour Of Chilled Water Below 12°C. Accessories for the arctic Chill 88 include installation rail with filter, filter housing with carbon block candle & nanofilter. It has a 3 Litre overflow kit which connects the drip tray to a 3 litre alarmed overflow container. The container has a tap to empty without removing it. FloodGuard - closed inlet solenoid only opens to allow water into the cooler, when water is dispensed. By remaining closed all other times it protects the cooler against leaks. Mains drainage - connect the drip tray to mains drainage. Can be supplied with a pump, to pump the water over 50m & a rise of 5m.

- 10 litre overflow system with alarm to signal when full. (Factory fitted)
- Impressive 23cm dispensing height
-
- WRAS approved
- FloodGuard inlet solenoid protects the cooler against large scale flooding
- Single dispensing button for chilled water
- Fits our standard cowling and wall bracket
- Floor Standing 1135mm (h) x 340mm(w) x 340mm(d), Table top 460mm(h) x 340mm(w) x 340mm(d)
- Weight: Floor standing - 25kg, Table top - 16kg
