POU Water Cooler

Arctic Chill 98

The High Capacity Direct Chill POU Cooler Arctic Chill 88 offers a sleek design that will fit into any interior and includes a contactless infrared sensor to avoid touching the dispense button. The ArcticChill 98 delivers 30 - 40 ltrs of below 12°C chilled water Per Hour & copious amounts of Ambient Water. It features an infra red sensor which activates dispensing when you place your hand approximately 4cm over the sensor. Accessories for the arctic Chill 88 include installation rail with filter, filter housing with carbon block candle & nanofilter. It has a 3 Litre overflow kit which connects the drip tray to a 3 litre alarmed overflow container. The container has a tap to empty without removing it. FloodGuard – closed inlet solenoid only opens to allow water into the cooler, when water is dispensed. By remaining closed all other times it protects the cooler against leaks. Mains drainage – connect the drip tray to mains drainage. Can be supplied with a pump, to pump the water over 50m & a rise of 5m.
