Arctic Revolution 75B

Style and substance, the cool styling of the Arctic Revolution 75B wouldn't look out of place in any modern office. Beneath the stylish exterior sits an evolution of proven components and new hygiene technologies. The dispenser features touch buttons to dispense cold drinks or ambient temperature drinks. The dispense height is a very useful 23cm, easy filling for sports bottles. The filter is located inside the machine, leaving an uncluttered and clean looking exterior. Hygiene Guard inhibits bacterial growth at the dispense head, keeping the drinking water safe and clean. The Arctic Revolution 75B is now available as a compact table top cold & ambient version.

- The ArcticRevolution 75B represents a significant UPGRADE in design and functionality
- which replaces the ArcticRevolution 70/70B.
- Can be fitted with a KLARAN UVC LED self sanitising processor and a contactless kit to
- stop hand to tap contamination.
