

**Product Group**

Drinking Water Taps

**Product Sub-Group**

Tabletop Tap and Under-counter chiller/boiler.

**AA First Pro Stream 55 Tap**

The stylish Pro-Stream Tap Plus 55 is an advanced high-performance system designed to serve hot, chilled, or sparkling water. The 23 cm dispense height allows large bottles to be topped up with filtered fresh water.

Drinks selection is courtesy of a simple to use touch pad at the base of the tap. The hot water and chiller units are out of sight and located under a counter. Environmentally friendly heating and chilling technologies that bring a rapid dispense in whatever your selection.

The Pro-Stream ice bank delivers fifteen litres/hour of chilled/chilled sparkling water, whilst the Pro-Stream hot water boiler dispenses fifty-five litres/hour of hot water at up to 98C.

Clever features include an energy saving sleep mode that can turn its boiler off when unused, saving on energy costs. CO<sup>2</sup> cylinder and gas regulator required for carbonated option.

- Attractive high-quality stainless-steel finish
- Easy to use touch buttons.
- Up to fifty-five litres an hour hot water
- Energy save mode.
- Tap footprint:
  - 255mm (h) x 131mm (w) x 121mm (d)
  - Weight 5Kg
